Salt Lake City, Utah 84108

Dear Mr. and Mrs. Timm:

On July 30, 1993, we received your Notice to conduct exploratory operations in the Fraction Lode claim area in T. 7 S., R. 18 W., Section 26 (UMC 78504 and 78505). Your Notice has been assigned serial number U27-93-08N. Please refer to this number on any future correspondence relating to this Notice.

The Notice meets the requirements of 43 CFR 3809.1-3 and has been accepted as properly filed. As provided in the regulations, you may commence the operations described in your Notice.

Regulations require that reclamation of all areas disturbed will be completed to the standards described, and reasonable measures will be taken to prevent unnecessary and undue degradation of the Federal lands during operations. Please notify this office when operations and subsequent reclamation are complete so that a follow-up inspection of the site can be made for closure. If your activities extend for more than one calendar year, or if you modify your operation from the original plan, please notify this office.

Acceptance of this Notice will not now, nor in the future, serve as a determination of the ownership or the validity of any mining claim to which it may relate.

Please be advised that it is the claimant/operator's responsibility to conduct operations that qualify for the "Small Miner's Exemption" under 43 CFR 3833.1-6. A routine inspection of your mining activity may determine whether or not the activity meets the definition of qualifying exemptions. If your mining activity does not qualify for exemption, the mining claims could be cancelled.

Thank you for your cooperation. If you have any questions, or require additional information, please feel free to contact Cheryl Martinez of my staff at (801) 977-4300.

Sincerely,

Howard Hedrick
